THE TARIFF ON HIDES

Fixed by the Senate After Long Discussion.

TRUSTS AGAIN UNDER FIRE

Schedule on Cattle Agreed to House Conveyes and Adjourns

WASHINGTON, June 28.—The senate and progress on the tariff bill to day, disposing of the paragraphs relathides, which have been the source ing toghides, which have been the source of much controversy. As finally agreed on the duty on bides is placed at 20 per that ad valorem in place of 1½ cents per pound, as originally reported by the finance committee. The discussion was protracted, shifting into a general debate on trusts, and from that back to

the sugar trust.

Mr. Smith of New Jersey spoke at length against the duty on hides, while Mr. Allon of Nebcaska supported the duty. The new paragraph was agree to, one Democrat, Rawlins of Utah, and several Populista and silver Rapublicans

affirmative.

The incidental debate on trusts led to a severe arraignment of the sugar trust by Mesers. Califory and Lindeay and seemeral discussion of means to deal with trusts by Mr. Hoar.

Among the parsgraphs disposed of during the day were all those relating to glovee, a substitute for the parsgraph on live unimals, iron ore and stained glass windows.

when load, mr. Allison said it was proposed to change the paragraph on lead ores, bullion, etc., from 2% cents. The paragraph wont over at Mr. Allison's request.
Mr. Allison proposed a change in paragraph 429%, relating to bides, making the rate 2t per cent ad valorem instead of 1½ cents par pound; side striking out the proviso relating to drawbacks.

striking out the proviso relating to draw-backs.

The paragraph as amended, reads whether dry, saited, or plokied, 20 per cont ad valorem.

An Smith stated in response to questions that the proposed 20 per cent ad valorem was much greater than the 1½ specific duty, being about jour cents per pound by the ad valorem rate.

Mr. Plate of Connecticat Interposed the suggestion that he lied telegraphed to the Naw York custom to the legacy of the Naw York custom thouse is reference to the importation of hidee and had secured an assewer stating that the importation in the last eleven months was 79,000,000, and that I are prize of French green lindes averaged about 10 cents a pound, and the South American hidee alous 15 cents.

Referring to Cuba, Mr. Smith spake of

goand, and the South American Bides alond 5 cents.

Referring to Guba, Mr. Smith spoke of the remarkable fact that a resolution recognizing the belligeroncy of the Gubans and heave passed by the senate and sent to that catalolque or to that comb, the bones of representatives, to be incred by a Republican house, and a Republican apeaker at the dictation of a Republican President Lives an Insult to the American proping, which they would rubake at the only next Kovember.

Mr. Baley of Texas challenged that the would move an adjournment to the test of the statement with the observation that the benervapity bill and Ouban bellizors nev resultion were unacted upon. The opposition applicated when the rising vote showed them in a majority of one, the vote regulating 87 to 86 against Mr. Dingley's motion. Thereopon Mr. Dingley demanded the year and nave, and the roll was called. The motion was carried, 97 to 88. Before the announcement of the vote, on motion of Mr. Steel, Republican of Indians, July 19th was set selds as a day for paying rithute to the memory of the late J. W. Holman of Indians.

The speaker announced that this creder would be subject to the action of the committee on rules.

At 12.45 p.m. the house adjourned till Thursday.

With the unusually large number of candidates and their workers here tonight, the anti-convention contests were very animated. The field has concentrated against R. T. Hough as the favorite for governor and will light him to a decisive bellot. The lighting for the state ticket is very animated.

There was recently organized a state legislative league of silver Republicane in opposition to what is known as the Palmer-Buckner Democrats. This organization has its representatives here demanding that the lieutenant governossible be given to a silver Republican, it is not likely that the second place on the state ticket will go to any Republicans who may have voted for Bryan and Sewall.

Feeling his strangth going Dr. Rankin struggled to the mantle piece, where his own pistol lay and shot Copp brough the side, the ball glancing from a rib.

During the fight between the men Mrs. Rankin was struck in the head by Copp and severely out, and her daughter, Mrs. Hermes, was prounded about the face and one of her eyes destroyed. Mrs. Hermes finally manned to reach the street and called for help. The members of the fire engine company, headed by Fred Rankin, a brother-in-law of Oopp, broke in the front windows and overpowered the would-be murderer, who was just preparing to attack Dr. Kankin a second time. The latter, although bleeding from a frighted gash across his throat, was standing in front of his wife, his revolver in hand, waiting for the attack. In Copp's pocket, after his street, was found a note seying that he intended to murder Dr. Rankin, Mrs. Hernee, Mrs. Copp and then kill himself. He claims his wife. The letter was not at home when Copp appeared, It is expected that Dr. Rankin will die.

New Berrone, Mass., June 28.—Letters received in this city today from
Herschol island bring the intelligence
that three of the staunchest staamers of that three of the stannchest steamers of the San. Francisco whaling fleet were caught in the ice off the mouth of Mackenke river last September and could not make a learbor. These vessels, the Mary D. Hume, Uastain William Haggerty; the Charles it. Frennes, Captain William S. Portor, and the Fearless, Captain James McKenns, were frozen in the lies while trying to make a harbor. They were in no danger during the winter, but the letters state that during June, when the ice pack breaks up, the vessels will have a hard time of it and the chances are that all three will be crushed in the ice. If so the lives of from 120 to 150 mess would be in danger. The whalers were short of provisions and the crews had to hauf supplies from Herschel island over the ice on deg eledges to the vessels.

as follows:

The attention of this grand jury is

slot directed to the form of gambling, in
a mall way, by the device known as the
slot machine. These machines are in
universal use and may be found in
nearly every saloue, corner grocury and
ofigar stand in the city, and from such
observations as we have made they have
superseded many of the other forms of
gambling and have become most popular. The results of this form of gambling, so openly conducted, so general
in the use and to popular, on the youth
of this city seem to be overlooked; nevertheless to the city boys, accustomed to
the universal use of the nickel, it is
a wonderful strastion and its effect on
them most deplorable, for certainty a
more perfect school for gambling could
not have been invented. A member of
this committee received a visit treently
from a mother who stated her case thus;
"I have a young son carning small
wages to help support himsell and the

habit of butking a portion of all in searnings in the nickel-in-the-slot machine,
and he has become as fascinated with

cannot break him of it; wan't you
grand jury gantlemen please do something to suppress there gambling machines and save other boys as well, for life are learning to play the game.

The infinence of this device on the genrel public is most permictone, and in
view of the common good we would most
respectfully suggest that the attention
of the proper suthorities be directed to
this matter that steps may be taken to
correct the evil.

These strictures agree with what has These strictures agree with what has been said about the machines in the Reprostant from time to time. They are gambling devices and instead of linearing them the emperations and trustees should do their utumest to suppress them. In Sandaw's issue of this trustees should do their atmost to sup-press them. In Sunday's issue of this paper there was an interview with a saloon keeper. He declared that these machines were worse for the community than Chinese lotter-ies, and it was plain from his re-marks that he would not be surry to see them done away with. This is said to be the attitude of most saloon However, they draw a broad san to be the waver, they draw a broad distinction between those machines which one plays for money and those which, in return for a nickel, give a cigar or play a tons. Being harmless, it claimed that these latter machines it claimed that these latter machines should not have to pay the same license as the money machines, and this contamion certainly seems reasonable. If the esloon men are is layer of doing sway with the money machines their suppression coght to be an easy matter for the authorities, who should lose no time in astime a hearting about it.

time in satting about it.
As stated in the report above quoted these machines are a perfect school for gambling, and they have a particular attraction for the young. The case of the boy who le I his small salary to these inboy who is I his small salary to these in-satisble contrivances is probably only one of a handred in San Francisco, and many mothers and wives throughout the state could denucless tell the same story. Considering the injury these mentions have done it is surprising that they have been tolerated this long, but perhaps the people have only begun to realize the full extent of the evil. There is too much of the granbling spirit in our peo-ple as it is, and unless it is checked we may count out a steady increase in the may count on a steady increase in the demoralization and crime which result

The entire Russian press, official, eemi-official and non-official, condemned Mr. Cleveland and the entire in which the meanure and omeial, condemned Mr. Cleveland and the spirit in which the message was re-ceived by the country, and several of the papers did not besitate to say that "the Americans ought to be taught a lesson." Our "excellent friends," the Frenchmen, expressed the meelves to very much the same purpose. The German na Frenchmen, expressed themselves to vory much the same purpose. The Garman papers, the reptile press included, displayed a very malevolent spirit towards us and pools-pooled the Monros doctrine. Poor old Austria acted likewise, and decrepit Italy brought up the rear. Had England accepted the gage throws acting in the sensible manner she did, these jackals would have followed the liou in the hope of receiving their share of the feast in case the lion should pre-

If the Americans are wise they will If the Americans are stated to the accept the protestations of flondship of European powers at their true value, which is nothing. Let us understand thoroughly that they will be friends with us merely as long as it is in their in terest to remain so, and that our safety in the part lay to agreat extant in the in-ability of the powers to put saide their mutual jealousies and enter into a coalition. Whether this will always be so we cannot say, but we have no right to expect it. In our opinion the time has some to make the United States navy the strongest in the world and to provide adequate coast defenses. The safety of a nation lies in its aniety of a nation lies in its own strength, not in the divisions of those who might become its anemies.

Tue Woman's Olub of Hanford his Tax Woman's Olab of Hanford has taken hold of the question of a public park for that town and proposes to improve and care for the place if the necessary ground is furnished them by some enterprising citizen or citizens. The ladies ought to and doubtless will succeed in their laudable purpose, for it is inconceivable that there are not men in lauday who will all the women in Haulord who will ald the women in such a worthy undertaking. There are all sorts of women's clubs with all sorts of purposes, but those which devote their time and attention to the heautifying of the town in which they exist are especially commendable and should have the substantial assistance of all citizens. Such work is for the public benefit in the headent sense of the all sorts of women's clubs with all sorts benefit in the broadest sense of the term.

JOE SHEA UMPIRED THE GAME

The Visitors Well Blessed With the Courteous Treatment They Received.

The Conway & Baumels were th third team in the tournement sent to Freme to contest for the purse and pen-nant, and as neither team had been previously defeated, there was much interest in the game. The weather was perfect, the attend

ance good and good encouragement in the disposition of the players, coupled with splendid, uniform playing, won the day. There was some criticism in Man wer Ward's action in sending Jos Mc

ager Ward's action in sending Joe Mc-Carthy to short, but the result shows that his judgment was correct and that Joa can play anywhere if the true attumps are not over six feet high. The old time 'rooters' were all there and in fine trim, and the visitors were cheered correctestly and fairly when a good play was made and the game was enjoyable throughout. Again the visit-ing team excelled in out-flading and were weak at the bat and on inside play.

were weak at the bat and on inside play.

Not a thing occurred to mar the pleasure of the game and the visitors were warm in their praise of the courteous treatment which was accorded them. They said they had been informed that they would be "easten up" by long twheel "rooters" and the public generally when they got on the field, and were agreeably surprised at the way in which the Fresco people awarded them appleases when they deserved it and refrained from anything to make the occasion disagreeable to them. They played for all that was in them and to win, and were beaten fairly and by fair means.

means.

The Conway & Baumels won friends on every side by their courteous conduct, manly play and the 'spirit with which they accepted defeat from a stronger nine.

Jos Chea ngain cumpired and with the same general satisfaction that hes actualled at his work on the Freene dismond. The following brief report ombodies the most important features of the game:

Irrigation a Remedy for Thrips.

J. R. Martin, who is managing a vineyard in the Riverbend district four infles
east of Salma, stated to a Regunacian
reporter yesterday that he would have a
heavy crop of grapes on life vines this
year. Neighboring vineyards have
suffered severely from the thrips, and
the yield will be light. Mr Martin ascribes his good crop to the fact that he
irrigated when the ineects first appeared,
and this caused the vines to grow fact
than the hoppers could sap the leaves.
The vines got ahead and the grapes set
fuvorably. Irrigation a Remedy for Thrips.
